

**A MODULAR TRAINING PROGRAMME
FOR PROFESSIONALS IN EDUCATION**

PROGRESSION FRAMEWORK

Introduction to the framework (download FREE), with key features and guidance on how to use it. Hands on training for all staff involved in setting learning goals and recording progress for pupils.

THIS TRAINING PROVIDES AN OVERVIEW OF THE AUTISM PROGRESSION FRAMEWORK WHICH IS AVAILABLE FREE FROM THE AET WEBSITE.

PARTICIPANTS WILL DEVELOP:

- Understanding of how the progression framework relates to the broader educational context
- Familiarity with the content and key features of the progression framework
- Skills in identifying learning goals and measuring progress for pupils on the autism spectrum in areas specific to their individual needs

Suitable for practitioners working with school-age pupils on the autism spectrum in both mainstream and specialist services. It could also be delivered as an extended twilight session.

The training uses a range of teaching tools including video, case studies, problem-solving scenarios, presentations and practical resources and activities.

Autism affects around 1 in 100 children and adults. All professionals working in education settings should be prepared to support pupils on the autism spectrum – and all staff should have a basic awareness of autism and the needs of individual pupils.

This programme, supported by the Department for Education, offers nationally delivered face-to-face training for professionals working across all education settings for school-aged pupils aged 5 – 16 years through the training hubs listed overleaf.

The AET schools programme will form an essential part of your Continuing Professional Development.
